

HPRA Pre-K-8 Campus

Our goal is to partner with families and schools to support positive youth development. Parents/caregivers are the most important people in your child's life. This is why your involvement is so critical to your child's success.

We understand that there are different levels of parental involvement and are willing to work with you to provide different opportunities to support your child's academic and social learning.

Who We Are

For more than 26 years Development Centers, has been providing School Based Behavioral Services to children, youth, and adolescents in Detroit Public Schools and Highland Park Schools.

Our goal is to reduce barriers to learning by enhancing healthy social and emotional development of all school aged youth. We are committed to nurturing competent, healthy and successful students.

We accomplish this goal by providing:

1. Prevention and Early Intervention
2. Treatment for children, adolescents, and their families.
3. Alcohol, tobacco, and other drug prevention at select schools in Detroit.

Our Staff

School Based services are provided by Child Mental Health Professionals with some Certified Prevention Specialists. Staff are trained and knowledgeable about child and adolescent development. Prevention and intervention skills and strategies are used to intervene within the school setting.

SERVICES PROVIDED:

If it is determined that your child qualifies for services, they will have access to the following support services:

- Screening, Assessment and Referrals
- Crisis Intervention
- Individual, Group, and Family Counseling
- Case Management
- Prevention and Early Intervention Services
- Summer Camp Enrichment Program
- Educational Workshops
- Skills Building Assistance

Education and Mental Health Are Connected

Mental Health is necessary for a child to learn to grow academically and socially. They need to develop the kinds of skills necessary for having positive relationships with teachers, parents, and their classmates. Sometimes youth with emotional, social, or behavior problems need support in learning how to deal with their feelings and to become motivated to succeed in school. Our services are strength based to assist in fostering mental health and improved social and academic functioning.

How to get connected:

We welcome your referrals! School staff, parents, and students can make referrals to the School Based Program. After the referral is received, the parent/guardian will be contacted within 7 days for follow up. If you have any questions regarding the referral process please visit/contact our office.
